IN SHORT

CapitalChange is a US/European boutique specialized in Growth & Value Creation working for entrepreneurs, CEOs and shareholders. Our partners are advisors with deep personal experience as entrepreneur, CEO and board member.

The fastest way to achieve succes.

Strategy · Growth · Exit

LONELEY AT THE TOP

"It's lonely at the top", an expression that any entrepreneur/CEO recognizes. Outside the management team and the boardroom there are always things you can't discuss with anyone. Not with employees or advisors because **entrepreneurship** is a DNA type that you only understand if you have it yourself. Capital Change offers support from experienced entrepreneurs who can advise effectively. We help entrepreneurs/CEOs with short-term issues and can participate in the longer term.

CORPORATE DEVELOPMENT; STRATEGY - FUNDING - GROWTH - EXIT

People come to us for advice at all stages of their business. Raising capital, creating an acquisition plan, selling a company and more.

Whatever your challenge might be, our combination of insights on Strategy, Marketing and Finance always come with a passion for the work. Passion, our knowledge and entrepreneurship is the basis for our role as sparring partner and dealmaker focused on growth and/or a successful exit.

PARTNERS

Capital Change is an international organization founded by several successful European and American entrepreneurs. We believe in local offices with local partners who know their way around, know the right people, and have a proven track record as an entrepreneur and/or CEO. In addition, each partner has an area of expertise in which he belongs to the top in his field. The main advantage of our international network is that it is very responsive, flexible, and reliable. This improves efficiency, reduces risks and avoids wasting valuable time.

ADDED VALUE

"In fact, our added value is simple: we've done it before, as entrepreneurs as well as advisors. For our clients, this leads to an acceleration of learning curves, more time and attention to focus and, moreover, they get to know the right people using our extensive network. We are not "typical consultants", but really work with you and your team to achieve common goals. From entrepreneur to entrepreneur".

TRACK RECORD

Founders of 15 successful tech companies, 110+ years of CEO/Owner experience, 70+ M&A deals, 70+ Growth & Value Creation assignments.
